

Terrorism – Moral, Psychological, Political & Legal Perspectives: A Select Bibliography

Patrick S. O'Donnell
Department of Philosophy
Santa Barbara City College (2013)

As a “select bibliography” this compilation is far from exhaustive or comprehensive. Nonetheless, I think it will suffice for many purposes, especially if, as part of one’s incipient explorations of the subject, one desires a sense of the range (if not quality) of the literature on the topic. If there are titles you think are conspicuous by their absence, please send them to me and I will include them in an updated version of this list.
